NOTICE TO ICE CONSUMERS.

THE UNDERSIGNED, the oldest ICE trader in the City of Milwaukee, would inform the Public that he as usual will cut his Ice in the neighborhood of the Harbor in order to procure the clearest and best Ice, and also that he will place around the holes which he cuts in the Ice, blocks of Ice as a fence that everybody may be warned from danger. The cutting will commence about the First of January.

If the Common Council will appoint an overseer, I should have no objection, and I would even pay the expenses, should it be required.

I am confident that the Public will appreciate my endeavors to serve them with the best Ice, at the same time guarding them from danger.

The most Popular Collection of Church Music EVER PUBLISHED IN THE WORLD.

THE NEW CARMINA SACRA.
BY LOWELL MASON.

MORE than four hundred thousand copies of the Carmina Sacra have already been sold. It has been used more extensively more generally, for a longer time and with more satisfaction than any other collection of Church Music. It has done more for Congregational Singing in America than any other agency. The majority of those tunes which are constantly used all over the land are from this book.

Our edition of the New Carmina Sacra has been entirely revised; the less valuable matter having been omitted and its place being filled by the most popular tunes from the author's other works. Entirely new and attractive Elements of Music Exercises &c are also introduced. In short the New Carmina Sacra is now in a most complete and permanent form. Though churches may have any and all other books they are not fully furnished for service without a supply of this book. As a text book for Singing Schools, the hundreds of thousands who have used it appreciate its great value. Sold by book sellers generally.

A JOURNEY TO THE
Seaboard Slave States.
BY FREDERICK LAW OLMSTED.
Author of "Walks and Talks of an American Farmer in England."

One vol 12mo 725 pp, with wood cuts. Price $1 25.

The Southern *Cultivator* predicts that this book will have greater influence on the minds of readers than Uncle Tom's Cabin has had.

The New York Daily *Times* says of it — This work will be by far the best yet published on the subject.

The New Orleans *Delta* observes of the author — Prejudiced as his opinions were he was not a wilfully dishonest man or an unfair writer. We would welcome a few more men of his calibre among us—ready to tell it manly and honest.

THE MORMONS AT HOME

Descriptive of a Tour through Kansas and Utah and of a residence at the Great Salt Lake City by the wife of the late United States Commissioner at Utah.

Portions of this work have appeared in Putnam's Monthly, and have been received by the press and the public with the strongest evidence of commendation and interest. The facilities enjoyed by the author for apprehending the general public policy of the Mormon leaders and for observing the effect of their policy upon the interior social and family life of the people, were such as secure for her report peculiar and permanent value.

Christadoro's Hair Dye still Triumphant!

CONTRAST the tints brought out on the hair by Christadoro's matchless revitalizing Hair Dye and those produced by application of the burning fluids ordinarily sold as Hair Dyes you see at once that the color is natural in one case unnatural in the other and the simple reason is that Christadoro's is the only preparation which by its exact chemical combination operates on natural and immutable principles. Made sold and applied (in 10 private rooms) at Christadoro's 6 Astor House Broadway N Y. Also for sale by the principal Druggists and Perfumers throughout the country.

News of the Morning.

The Canada arrived at Boston at 5 o'clock yesterday afternoon. Further details of her news will be found in the telegraph column.

Several documents relating to the Kansas troubles were laid before the Senate yesterday, and some sharp skirmishing ensued between Senators Wilson, Toombs, and others.

Mrs. Caroline Lee Hentz, the authoress, died on the 11th inst., in Florida.

Our correspondence this morning will be found interesting.

The Contested Governorship.

The Supreme Court having decided unanimously that it had and would entertain jurisdiction in the case instituted by Mr. BASHFORD to *oust* the [illegible] Mr. BARSTOW, from the Executive Chair, and ordered the latter to plead by Thursday [illegible] to the information filed in [illegible] of Mr. BASHFORD. We learn from Madison that Mr. BARSTOW, defeated in his first move, will [illegible] the [illegible] of the fraudulent [illegible] which he holds. In other words he will plead that the Supreme Court cannot go behind the acts of the State Canvassers, and that possession of the Executive Office is ample and [illegible] evidence of title. This is the usurper's [illegible] dodge. It will avail him no better [illegible] but it throws additional light upon [illegible] of the contest. This plea to the [illegible] all [illegible] or the [illegible] claim that the Supreme [illegible] into the frauds charged, are [illegible] significant [illegible] of a dead cause. It [illegible] Mr. BARSTOW, his partisans and his [illegible] that a thorough investigation will establish Mr. BASHFORD's right and title to the office of Governor that they resort to these quibbles and subterfuges and build all their hopes upon [illegible] law's delay.

THE TROUBLE AT MADISON.—We are happy to [illegible] that the great "noise and confusion" made [illegible] press on the supposed defalcation [illegible] Janssen, late State Treasurer, will not [illegible] of a shower" after all. It is [illegible] the amount is small and the result [illegible] of negligence in keeping the [illegible]

[illegible] Menasha, that fortunate [illegible] exceedingly. Hereabouts [illegible] "officially" report [illegible] *dollars* certainly, and [illegible] State paper [illegible] negligence, but *fraud* [illegible] The Barstow prints may [illegible] to make light of the matter but they [illegible] a terrible reckoning by the [illegible]

WASHINGTON COUNTY MATTERS.—We have received [illegible] communications, *pro* and *con*, relating to the action of the Washington County [illegible] the DeBar case, for which, in the present crowded state of our columns, it is impossible to make room. A correspondent who [illegible] date of "Barton, Feb 16th," says:

"The *exposé* made by Mr. BARNES, in the De Bar case, has done some good, at least in stirring up [illegible] of this county to do a part [illegible]. Yesterday eight persons were [arrested on] indictments found by the Grand Jury at the Fall Term of Court, and have given bail in the sum of $500 each, to answer at the [illegible]. Among those arrested are some [illegible] engaged in the disgraceful scene.—[illegible] hopes that the reputation of Washington County may be partly redeemed [illegible] action of the forth coming Court."

DELEGATION FROM GALENA.—The following gentlemen representing the varied business interests of Galena, arrived in our city yesterday, to make arrangements for expediting the construction of the Southern Wisconsin Railroad.—We bid them welcome to our city and wish them all success in their mission:

[illegible] COLLINS,	S. W. MCMASTER,
[illegible],	CEPHAS FOSTER,
D. A. BARROWS,	M. Y. JOHNSON.
[illegible]	

These gentlemen [illegible] at the Walker House and had a long and satisfactory conference, last evening, with a number of the directors and the Superintendent of the M. & M. R. R. Company.

THE K. N. CONVENTION.—The Know Nothing National Convention meets at Philadelphia on [illegible] the 22nd inst. Already the delegates are gathering there and preliminary caucuses [illegible]. Despatches to the New York [illegible] represent the Southern K. N.'s [illegible] retaining the "12th section" [illegible] of their platform, and the Northern [illegible] demanding its repeal. Each [illegible] if the other prevails.

FIRE IN BUFFALO.—A large part of the Central [illegible] Depot in Buffalo, was destroyed by fire during the night of the 14th. The weather was very cold, the mercury marking 17 degrees [illegible]. A good deal of property was consumed, and a large quantity of baggage, just received by the Buffalo and Erie Railroad. The loss to the Railroad Company is some $6 [illegible]

TO CORRESPONDENTS.—We again remind correspondents that we cannot undertake to publish [illegible] written on *both sides* of [illegible] spun out to an unreasonable length. Communications should be short, plainly written, and to the point. Long and prosy articles stand [illegible] being published and less of being read.

NEW ELEVATORS IN BUFFALO.—The Buffalo [illegible] says that two new elevators are to be [illegible] the West side of Buffalo Creek, of an aggregate capacity of [illegible] bushels, making the total capacity of the Buffalo elevators [illegible]

STEALING FROM THE SCHOOL FUND.—We invite attention to the article which we copy from [illegible] showing how, in violation [illegible] defiance of the Legislature, the [illegible] robbed of thousands and [illegible] dollars, under pretence of [illegible] and other expenses.

BADGER STATE BANK.—We [illegible] who may have business to [illegible] to the Badger State [Bank], a long and well conducted institution, [located] in the thriving city of Janesville, and under the management of competent and trustworthy officers.

WISCONSIN RAIL ROADS.—We notice sales [illegible] shares Milwaukee and Mississippi Railroad [in] Wall street, on Thursday last, at 86a87, and [illegible] of the Green Bay, Milwaukee and Chicago R. R. at 75.

— The New Haven Journal says the ice houses [illegible] neighborhood and elsewhere are nearly [illegible] filled, and there is still a plenty of ice "left [illegible] doors to spoil."

Trip from Appleton to Stevens' Point—Hortonville—New London—The Pineries on the Little Wolf—Ogdensburgh—Scandinavia—Spring Island—Stevens' Point—Mail Service—The Farming Lands—Waupacca—The Election Frauds, &c.

APPLETON, Feb. 14, 1856.

Messrs. Editors:—In company with Mr. REEDER SMITH and daughter, of Appleton and Miss KIMBALL, of Boston, I made a very pleasant trip to Stevens' Point, during the last week. Our route was on the line of the Plank Road from this village to Stevens' Point, in which Mr. Smith has been deeply interested for the last two or three years, and in the progress of the work has invested a large amount of capital. About 20 miles of the road are graded, and a great portion of this distance is planked; and taken as a whole, it is one of the smoothest roads I ever passed over in a new country. The settlers on this route, all through the section of country lying between the Fox and Wisconsin Rivers, can hardly over-estimate the advantages to be gained by thus being put in connection with the two most important points to be found on two of the largest rivers in our State, by means of a good thoroughfare. The travel over this road when completed must be large, and remunerative to the Stockholders, and those who have taken stock in the road owe it to themselves, to the Directors, and to the public at large, that no embarrassments should be thrown in the way of the speedy completion of so important a work. This road has opened and traverses some of the finest farming lands in the State, which, but for the untiring perseverance of its originator and foster parent, Mr. Smith, would hardly have been known at the present time, except as a vast unbroken wilderness in the Northwestern part of Wisconsin. A great proportion of the land on the route has been entered since this road was surveyed, and now families may be found on the line of the road for the whole distance at an average of one to every 40 acres, all prospering finely. The most expensive portion of this road consists in bridging an extensive marsh or bayou putting out from the Wolf River near New London. This bridge will be about one and one fourth miles in length. The timbers are all laid ready for planking, and it will be completed as soon as the plank can be obtained.

Hortonville is a new town just springing up on Bler Creek, 19 miles North-west of Appleton, and presents many evidences of thrift.

New London, Waupacca Co., is 20 miles from Appleton, and is situated on Wolf River, at the mouth of the Embarrass, and is the head of navigation on the Wolf. The Wolf, at this point, is some 15 rods wide, and from 12 to 14 feet deep, and makes a fine curve as it passes through the town. Both the Wolf and the Embarrass are remarkably crooked streams and at this point they seem to have been vieing with each other in describing circles and zigzag courses. In a bend of the Embarrass, near its junction with the Wolf, was formerly an Indian burial ground and cornfield. On the sacred spot, where but a few years since the red man of the forest held undisputed sway, and the camp-fires burned brightly, illuminating the dark thickets that surrounded them and casting their mellow light upon the glassy surface of the Wolf as its deep waters swept so gracefully around the hallowed spot of earth containing the dust of their warriors, and chiefs, and fathers, may now be seen a thriving town just emerging from the wilderness, with its Pearl, South Pearl and State Streets, and so on through-out a long list of appropriately named streets—its Washington Square, Market Square, Lyceums, Schools, &c. Although New London is only "two year old," yet it has already attained to quite a manly growth, and possesses all the elements necessary to a vigorous manhood.

It contains three hotels, four dry goods, grocery and hardware stores, one tin shop, two blacksmith shops, one steam saw mill, two ware houses, three carpenter shops, one large tannery, a good boarding house, and a post-office, of which Wm. McMillin, Esq., an intelligent, energetic and worthy Scotchman, is post master, and furnished me on short notice with some ten or twelve subscribers for the *Sentinel*.

Excellent farming lands may be obtained in abundance for a great distance up both the Wolf and Embarrass rivers, at Government prices, presenting a fine opportunity for the enterprising pioneer to grow up with the country, and prosper, as all must with the immense tide of immigration now flowing into our State. Roads are opening in every direction, and but a few years will pass before there will be a railroad built from Fond du Lac, via Oshkosh, Neenah, Appleton, New London, and up the Valley of the Wolf to Carp river and Lake Superior, connecting the whole north-western portion of the State with its commercial emporium and the east.

New London will possess, during the coming season, an uninterrupted communication with Oshkosh, sixty miles below, by a daily Line of Steamboats. Large supplies of merchandise, produce and lumber will seek a transit through the navigation of the Wolf, and all will conspire to make this point a place of some considerable business at no distant day. Reeder Smith possesses quite a large landed interest here, and with his usual energy at pioneering is doing much towards building up the town.

The Pineries on the Little Wolf and its branches, present, just now, a scene of busy life. The reverberating blows of the axe-man, in felling the tall pines, the continuous buzz of the "cross-cuts" in manufacturing them into logs, and the cheerful notes of the woodman as he rolls three or four massive "cuts" upon his "bobs," and starts his team of three or four yoke of oxen for the banks of the river, make fine music these frosty days. The MORE BROTHERS are manufacturing at their mills at North Royalton, on the Little Wolf, about 10,000 feet of lumber daily, and the river is full of logs for some distance above the dam. The MICKLEJOHNS, a few miles farther up, are also doing a fine business in the manufacture of lumber. They have recently erected a Grist Mill at that point.

Ogdensburgh, 28 miles from Appleton, 8 miles from Waupaca and 7 miles West of Micklejohn's on the south branch of the Little Wolf is another village, 1½ years old, which Western enterprise is starting into existence before thousands of our good, dreamy, busy city folks ever heard of such a place. The village is already platted, and contains some 10 or 12 industrious families. C. S. OGDEN, from whom it derives its name, has just erected a Gristmill for 2 run of stone, which will be ready for business early in the season, and is an ornament to the place. A Post office has recently been established there and Mr. N. LIVERMORE appointed Post Master.

In addition to the Grist Mill, the village contains a Store, a Saw Mill, a Shoe Shop and a Blacksmith Shop. It is surrounded on all sides by a rich farming country, as an evidence of which I was presented by Mr. J. C. WILLIAMS, occupying a fine prairie farm a short distance from the site of the town, with several ears of corn, the product of ten acres, averaging a yield of over fifty bushels to the acre, and much of it standing in the field before harvesting twelve to fourteen feet high. The same gentleman, also, raised 400 bushels of potatoes to the acre.

[*Concluded to-morrow.*]

MONEY MATTERS IN NEW YORK.—The New York Money Market is improving rapidly. On Thursday, says the *Commercial Advertiser* of that date, the stock exchange showed much excitement and the sales were enormous. Several of the leading stocks advanced largely; among them, Milwaukee and Mississippi, which went up to 87, 1½ per cent. above Wednesday's rates. *Commercial* says:

The aspect of the money market continues to improve. There is an abundant supply, and dealers in paper find it difficult to employ the means at their disposal. Money is readily obtainable at six per cent., and offers at that rate have been refused this morning. First class paper is scarce, and rules at 7 to 9 per cent. Some purchasers are reported on bank account at six per cent.

Chippewa County—Its Extent, Soil and Productions—Bridge Creek and Bogus Election Returns.

CHIPPEWA FALLS, Wis., Feb. 8th, 1856.

Messrs. Editors:—In consequence of an advertisement inserted for the last few weeks in your paper, I have received many letters for inquiry.

Your paper must have a large circulation. It is at all events a good advertising medium.

I have been inquired of respecting the location, surface, soil, water, timber, exports and imports of Chippewa County. Particular inquiry has been made concerning *Bridge Creek*; its location and the advantages it offers as a refuge, instead of Salt River, for defeated politicians of the Barstow school.

Allow me to answer some of these queries through the columns of your paper.

CHIPPEWA COUNTY extends for more than one hundred miles on both sides of Chippewa River. It embraces quite a variety of surface and soil. The South eastern part is prairie, general moderately rolling, but in places broken by high hills.

The Eastern part is a good soil, of moderately rolling land, timbered with sugar tree, Birch, Linden, &c., with pine on the streams.

In the Northern part are the vast forests of pine that constitute the great wealth of Northern Wisconsin.

The principal articles of export are pine lumber and *bogus* election returns. The former has for years past been quite profitable, but the latter is a new venture that does not, at present, promise to be very remunerative.

Our imports are much more than they should be. Lumbering has been the principal business. Farming has been neglected, and we have imported, at various prices, large quantities of Pork, Flour, Corn, &c. This drain upon our resources we hope to see stopped in a few years. When farmers settle our rich prairie and timbered lands, they will keep in the country the money that is now sent below for provisions. This will also increase the amount of our exports, for labor now expended in transporting these heavy articles can then be employed in the Pineries, producing the articles of export. Under such circumstances the country will grow in wealth. Though called Republicans, we are still Whiggish enough to think that the more we export and the less we import, the better.

Yours truly,
WM. J. YOUNG.

For the Daily Sentinel.

Rail Road Meeting at East Troy.

At a meeting of the citizens of East Troy, held at said village on Monday evening, Feb. 18th, T. MOWER was chosen Chairman and A. O. BABCOCK, Secretary.

Messrs. Kelsey and Reymert, appointed by the Commissioners of the Milwaukee & Beloit Rail Road Company to procure stock subscriptions to said Company then addressed the meeting. The books were then presented and ninety shares of the stock taken, after which S. Brooks and S. Smith were appointed a committee to canvass the town for stock subscriptions to said company.

The following persons were then chosen as delegates to the meeting to be held at Milwaukee on Saturday evening next viz: T. Mower, J. Carle, A. O. Babcock, H. B. Evans, E. H. Ball, S. Brooks, W. Barget, S. Smith, S. B. Edwards, W. V. Flowers.

The following resolutions were then passed, to wit:

Whereas, A Rail Road connection with Milwaukee is a matter of inevitable necessity, and whereas the only way to aid any enterprise is to *take right hold*, therefore

Resolved, That it is the feeling of this meeting that the Milwaukee & Beloit Rail Road is an enterprise of the first importance to every citizen of this town.

Resolved, That this Town sends greeting to its neighbors along the line, with the assurance that it will do its share of the great work.

Resolved, That it is the duty of every man to enlist and aid in the matter and that we will all do our duty.

Resolved, That a copy of the proceedings of this meeting be furnished the Milwaukee papers for publication.

T. MOWER, Chairman.
A. O. BABCOCK, Sec'y.

East Troy, February 13th, 1856.

BAD FLOUR.—The following from the *Journal of Commerce*, we commend to our readers:

The Persia brings advices of the damage done to the interests of our commerce by the improper standard adopted for flour inspection at this port. We called the attention of the trade to this evil at the time it was developed, and urged the adoption of a standard which would be alike honorable to the port, and protective to the interest of shipping. In several instances flour inspected here as "superfine," has been seized in France by the police as unfit for human food, and a general prejudice has been created against American flour from this cause. It is no use to disguise this fact; the low standard of inspection here is a disgrace to the city, and this is acknowledged by a majority of the trade. Most of the flour branded as "superfine," is not of that quality, as the word has been used in past years; and the low grades of "extra" are only a fair quality of superfine. According to the present inspection, "fancy brands" are ignored, and there is little flour fit to be shipped which does not go by the name of "extra." The cry now comes to us from abroad, "send us your wheat and we will grind it, but give us no more bogus flour."

STOCKING AMERICAN WATERS WITH ENGLISH FISH.—Mr. Roswell L. Colt, of Paterson, N. J., states, in a letter to the Commissioner of Patents, that he has ordered from Scotland the spawn of the trout, carp, and salmon, with the view of propagating them in the waters of New Jersey. He suggests that the Patent Office should import for distribution the spawn of the red mullet of Europe, as well as that of the sardines, for breeding in the Middle and Southern States.

GETTING ON.—We understand that arrangements are such now, between stages and Railroads, that we can go from Stevens Point to Milwaukee, via Berlin & Horicon, in two days.—*Stevens Point Pinery.*

That is so. Would it not be good time for Gen. Ellis to pay the "City of Bricks" a flying visit? His brethren of the press here would endeavor to make it agreeable.

THE WINTER IN NEBRASKA.—For nearly two months we have had the most severe weather ever experienced; the surface of the earth having been covered with ice and snow during the whole time, without the slightest thaw.

All nature looks dismal and dreary. The small brooks have long since ceased their murmurings, and the proud, heaving and rushing Missouri has suffered its surface to become a frozen sheet.—Such weather has never before been experienced in Nebraska since the oldest of settlers have been here, and we hope not soon again.—*Nebraska City News, Jan. 28th.*

AN ICE-BOUND FLEET.—There are now lying below Baltimore, bound to that city, a fleet of fifty vessels, fast in the ice, waiting for a change in the weather to reach their destination. Some have been detained there between two and three weeks, and from the present state of the weather, are likely to lie as many more. They comprise six steamers, three ships, six barks, ten brigs and twenty-five schooners.

SALES OF REAL ESTATE.—Mr. Amasa Wilson has disposed of one half of his interest here, including the water power, to the Hon. Andrew Dunn, the present Mayor of Portage City, for the sum of $4,000. The above named gentlemen intend building an extensive Flouring Mill at this place during the coming summer.—*New Lisbon Republican.*

CENTRAL BANK OF TENNESSEE.—We heard it reported yesterday that the brokers of Nashville were throwing out the notes of that institution. The mother bank is located at Nashville, and it has a branch at Paris.—*Louisville Journal.*

THE DIFFERENCE.—The papers say that Janssen's only misfortune is that he got into bad company. Our idea is that the *bad company got into him.*—*Ripon Spur.*

☞ Finest possible winter weather. Snow continues—roads as good as ever, and sleighs by thousands running. Produce abundant at same prices as last week.—*Stevens Point Pinery, February 7.*

The Transactions of "Barstow and the Balance" for the Year 1855.

The Reports of the Secretary of State and State Treasurer have at last made their appearance. The latter, *made under the official oath*, contains fifteen pages of general statements respecting amounts received and disbursed, and winds up with a recapitulation, the last item of which is the following direct and now conceded falsehood:

By amount on hand (including $900 Iowa Co orders).............$42,200 53

Such is one of the documents of which thousands of copies have been ordered by the Assembly at the expense of the people!

The Secretary of State's Report is of but little more value as a source of information. It contains a few items of interest, however. Among these is one showing certain disbursements from the school fund, which tallies well with the recent statement of the *Argus*, that no moneys have been paid out of the State Treasury except on an appropriation by law. A bill was introduced, just at the close of the last session, appropriating something over $2,000 for compensation of clerks in the School Land Bureau. It passed the Senate, but was rejected by the House, as a direct violation of the statutes. The chapter of the Revised Statutes relating to "the School and University Lands, the sale and superintendence thereof, the investment of the funds arising therefrom, and the powers and duties of the commissioners of said lands," provides as follows:

"The Secretary of State and Treasurer shall each be entitled to receive twenty-five cents for each duplicate certificate of sale issued by them, and the same fees for each patent, to be paid by the purchaser or grantee, *which* SHALL *be in* FULL PAYMENT FOR CLERK HIRE AND EXPENSES *incurred on account of the duties required of them by this chapter.*—Ch. 24, Sec. 55, R. S."

The Assembly, under their official oath to observe the constitution and laws of the State, refused to vote for a bill appropriating some thousands of dollars for clerk hire and expenses incurred under that chapter. There was, moreover, another consideration, which, in the absence of this plain provision, might have justified them in rejecting the bill. The fact was before them that the School Land Commissioners had, during the time these clerks were employed, received from $15,000 to $16,000 of illegal fees, *besides* their salaries, and the fees allowed them by the statutes. The Republicans of the Assembly thought that, with the fees provided by law for that purpose, and these thousands of illegal fees that had gone into the commissioners' pockets, those officers could pay their clerks. It appears, however, by the Secretary's Report, that, notwithstanding that bill was rejected, the clerks—in defiance of the constitution, which provides that no money shall be paid from the Treasury without an appropriation by the people represented in the two Houses of the Legislature; in defiance of the statute, which provides that certain fees shall be in *full* payment for this clerk hire—have been paid *out of the School Fund*—and paid, too, almost *three times as much as was claimed in the bill*—while the commissioners, in addition to the $16,000 of illegal fees, have pocketed the fees which the statute devotes to clerk hire. The following are the amounts thus robbed from the School Fund:

W. H. Besley,	$1,393 84
J. A. Byrne,	1,188 75
Henry Quarles,	583 00
S. F. Frary,	400 67
Jno. A. Savage,	90 08
Arthur Besley,	312 72
Leopold Lathrop,	285 07
T. C. Burke,	720 04
A. S. Wood,	141 75
Wm. B. Graves,	250 00
J. D. Ruggles,	992 23
Chas. Huggins,	255 00
John Williams,	200 00
Jno. M. Sheehan,	200 00
La Fayette Smith,	500 00
Carl Habich,	1,050 00
R. W. Lansing,	250 00
Total expenses of 17 clerks,	$8,628 70
Other expenses of the office,	10,120 23
Total expenses of the office,	$18,748 93

Is there no remedy for such outrages? Can the School Fund be thus wantonly plundered in defiance of the laws and constitution? Is it, as is claimed of Barstow's usurpation, a "*successful*" robbery, and all law, so far as the act is concerned, therefore practically annulled?

The Secretary publishes an estimate of the expenses for 1856. This was the basis on which Barstow founded his apprehensions of a $100,000 surplus in the Treasury next January.—Among the expenditures, the printing for this year is estimated at $4,000. On the next page, in an estimate of the unpaid expenses for 1855, this item occurs:

Calkins & Proudfit, *balance on Printing* $10,000

What reason had the Secretary to suppose that the Printing of this year would amount to only $4,000? More than that has already been ordered of contingent printing for the Legislature. He did not suppose anything of the kind; and his estimates are a shallow trick with a view to create an impression that the $350,000 State tax was not necessitated by the reckless profligacy of the State Administration, but levied, by the opponents of that Administration, to produce that belief in the public mind.—*Madison Journal.*

Newport—Its Business, &c.

We learn that Newport, with its immediate vicinity, contains about 1,000 inhabitants. It has 5 Dry Goods and Variety Stores, 2 Stove and Tin Shops, 1 Drug Store, 2 Grocery do., 1 Hardware do., 1 Clothing do., 1 Jewelry do., 2 Ware Houses, 1 Cabinet Shop, 2 Harness Shops, 1 Shoe Shop, 4 Blacksmith's Shops, 1 Bakery, 2 Meat Markets, 2 Taverns, 2 Saw Mills, 1 Sash, Door and Blind Factory, 1 Planing Machine, 2 Lawyers, 2 Physicians, 3 Religious Societies, &c. The three religious societies, (Presbyterian, Congregational and Baptist,) have preaching each Sabbath. We believe there are one or two groggeries, but conclude their influence is not increasing.

The inhabitants are nearly all Yankees; and from the short acquaintance we have had with them we believe they are generally sober, intelligent and enterprising citizens, who will compare favorably with those of any other place of its size. There is not a great deal of drinking at the taverns, and otherwise, we know by experience, these houses of entertainment are well managed.—On account of some doubt about the location and progress of the dam last spring, business was somewhat retarded during the spring and summer. But the dam is now going ahead, and business is lively and we presume profitable. That this is to be one of the large places of the State we think no one can doubt who believes that the dam and water privileges are to be made and that the Railroad is to cross here.

DELTON is a small, but quite enterprising village, about a mile south-west of Newport. It has a Grist Mill, 3 Stores, one of which is very extensive, 2 Blacksmith Shops, 1 Wagon Shop, 1 Fanning Mill Shop, 3 Taverns, and two or three Religious Societies. It also has an Academy, which we understand is under good management and in a flourishing condition. In addition to these things the people of Delton have shown a liberal and enterprising spirit in making valuable bridges and improving their roads. We hope this village, as well as Newport, may have no check on the highway to prosperity.—*Wisconsin Mirror.*

House Committees—Kansas Affairs.

WASHINGTON, Feb. 13.

The House Committees are leading topics of conversation. The Speaker has framed those in charge of financial matters, with the view to exact rigid economy from the Administration, and prevent wasteful appropriations by the House. The Administration is acceptably represented on them. The appointment of Mr. Winslow on the Naval Committee was in compliment to the Secretary of the Navy. It is said that Mr. Aiken declined the Chairmanship of an important Committee preferring a Membership in that on Foreign Affairs.

It is claimed by the friends of Mr. Banks that every section and leading interest is fairly represented by able men of all parties.

Mr. Letcher will probably be appointed on the Committee of Ways and Means, to fill the vacancy occasioned by the declination of Mr. Jones of Tennessee.

Information has just been received which represents that the danger of a civil war in Kansas is more imminent than is generally supposed.—*Cor. N. Y. Tribune.*

WHICH IS RIGHT—PICKNEY OR PIERCE?—Hon Charles Pickney, of South Carolina, writing from Washington, just after the passage of the Missouri Compromise, said that it would "give the South, in a short time, an addition of six, and perhaps eight, members of the Senate of the United States. It is considered here, by the slaveholding States, as a GREAT TRIUMPH."

On the other hand, Mr. Pierce informs the world that this compromise was "reluctantly acquiesced in by the Southern States, as a SACRIFICE to the cause of peace and of the Union."—Which is right?

MORE CONSOLIDATION.—We are informed on good authority, that a project is on foot among our ship owners to consolidate sail vessel stock to the amount of $1,000,000, and organize a lake transportation company, under the general law of this State, on a basis similar to that of the American and Western Transportation Companies. Some 80 to 100 vessels are included. The Company will be its own insurer. Thus we have three Lake transportation companies, whose united capital amounts to about $2,800,000.—*Buffalo Commercial.*

RYE—Nominal, 1,00@1,05.

MESS PORK—Held at 14,50@15 00 ℔ bbl. No demand.—*Tribune.*

NAVIGATION OPEN.—The schooner *Charlotte*, Capt. Sanford Morgan, arrived off our harbor Thursday evening, about 5 o'clock, and cast anchor, the ice not allowing ingress to the river. She was loaded with hay and provisions for J. S. Harvey, her owner, and bound for Two Rivers, whither she went yesterday. She had been lying in Milwaukee some two or three weeks, having been obliged to put in there in consequence of the ice, on her first attempt to reach Two Rivers from Chicago, in January. Capt. Morgan is a bold and persevering seaman, and will navigate his vessel against obstacles that few would have the hardihood to encounter. Success to the pioneer trip of 1856.—*Sheboygan Times, Feb. 16.*

Letter from Hon. John Minor Botts, of Virginia.

Richmond, July 9th, 1855.

Messrs. WM. S. BEERS & Co.,

Gentlemen:—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPANISH MIXTURE, for that almost incurable disease, Scrofula.

Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady.

I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases; for of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or control.

Respectfully yours,
jan26 JNO. M. BOTTS.

PIANO FORTE TUNING AND REGULATING.

THE SUBSCRIBER, having engaged the services of Mr E T Hurlbut a competent and experienced tuner, is now prepared to attend to all orders with which he may be favored. The following testimonial to Mr Hurlbut's capability is from the director of the celebrated Germania Musical Society.

[illegible] Mar h 2[illegible] 1855

It is with much pleasure that [I rec]ommend Mr E T Hurlbut as a Piano Forte Tuner and regulator. To say that he is an excellent tuner would not be doing him justice, for I can without hesitation say that he is capable of tuning a Piano as near to perfection as it is possible for a Piano to be tuned, but the greatest recommendation for him is the unusual length of time which a [Piano] [illegible] remains in tune. I have never, either in Europe or America, seen a man whom I would so cheerfully and with so much confidence employ to tune or regulate a Piano Forte as Mr Hurlbut, and as cheerfully recommend him to all who want Pianos tuned.

They are either prime dividend paying stocks or good valuable and clean investments [illegible] interest and income. The standard basis on which the Assets have been valued being *Gold at par cost*. SANDS & CUMMINGS'

NEW & IMPROVED PATENT BRICK MACHINE

FOR [TEMPERING] THE CLAY MOULDING AND [PRESSING]

Six Bricks in five Seconds

Completed at a Single Operation,

BY STEAM HORSE, OR WATER POWER.

IN presenting their [illegible] to the public the patentees and proprietors wish to make no [illegible] of its abilities or present in its behalf a single word which cannot be substantially and fairly actually maintained and they appeal to the practical brick makers of our country with confidence [illegible] add that such a machine is in positive and absolute demand. The business of brick making is now engrossing great attention and the rapid growth of our land seems [illegible] show that the present facilities will hardly meet a fraction of the demand for the useful articles which it is proposed to furnish by this new means of manufacture. In New England and the Great West the supply has not been adequate [illegible] and the consequence has been the prices of bricks have been exorbitant and that most especially during the year just over has been almost an extortion.

Sands & Cummings' Brick Machine is built mostly of iron is about four feet square and five feet high in the rear.—When it is worked by horse power, with four or five hands employed (no more being required) it turns out from fourteen to eighteen thousand bricks per day of ten hours. It is successfully operated by any ordinary laborers who by it become fully competent to the most intelligent and experienced brick makers.

CERTIFICATES.

WASHINGTON, December 27 1853

DEAR SIR—I have examined with much care and interest your Brick Moulder and Temperer on Capitol Hill in this city, and cheerfully bear testimony to its excellence. I consider its simplicity of construction, its rapidity of execution, and its durability to be apparent to every observer and I can say that the experience of twenty five years in the manufacture of brick has given me good opportunities of judging closely in this matter. I think your machine is unrivalled as a Brick Machine in the United States.

Respectfully, yours, S. HAYDEN, Practical Brick Maker, at Palmyra, N. Y.

H. SANDS Esq

WASHINGTON AQUEDUCT OFFICE, Washington, Nov 28

SIR—I was present yesterday, at an exhibition of Sands & Cummings' Brick Machine. It appeared to me to be conveniently arranged to be simple in its construction, not likely to get out of order, and it did its work quickly and effectually. I think it a very good machine.

M. C. MEIGS, Captain of Engineers, In charge of Washington Aqueduct and Extension of U States Capitol

H. SANDS Esq

WASHINGTON, November 22 1853

SIR—This day had the pleasure of witnessing the operation of Messrs Sands & Cummings machine for making brick, and must say that it performed much better than I expected. I can, therefore recommend it to the public as a valuable labor saving machine, as it tempers the clay and moulds the brick at the same time.

WM. P. ELLIOTT, Architect and Engineer

To H. SANDS Esq

WASHINGTON, November 28 1853

I have witnessed the operation of Messrs Sands & Cummings' Patent Brick Machine and consider it unequalled in simplicity and in the perfection of its results, by any machine of any class that has come under my observation.

CHAS. EVERETT, late of the Patent Office

WASHINGTON, D. C. November 28 1853

It is with much pleasure that I am prepared to say that having witnessed the operation of making brick by a new patented machine by Sands & Cummings, it by far exceeds my expectations. It is very simple in its construction and also in its operation. From my experience as a practical machinist and model maker, (having constructed several models for that purpose) I believe it to be far superior to anything I have ever seen. It can be worked with certainty and great facility by the most ordinary laborer, while it tempers the clay and moulds the brick at the same time. I would especially recommend it to all persons engaged in the brick business.

J. B. WOODRUFF

GEORGETOWN, D. C. November 25 1853

Having witnessed the exhibition of Sands & Cummings' Brick Machine, on Capitol Hill last week, I hereby certify that its work was very satisfactory and simple, thereby allowing it to be used by hands totally unaccustomed to it. I was much pleased with the machine in every respect.

ROBERT P. DODGE

WASHINGTON, D. C. November 23 1853

H. SANDS Esq.—*Dear Sir*—I have this day witnessed the operation of Sands & Cummings' Patent Brick Moulding Machine, and am fully satisfied that it is not equalled by any machine for speed or in the correctness of its work, and can therefore cheerfully and confidently recommend it to any person wishing to purchase a perfect machine.

Yours respectfully, JOHN BREES, Practical Brick maker, Wyoming, Syracuse Co. Pa.

WASHINGTON, March 21 1853

GENTLEMEN—I take pleasure in recommending to the public your Brick Machine. Having seen one in operation in Memphis Tenn. I immediately purchased the right to use one in Phillips County, Arkansas, believing that better brick could be made by them than by the old process, and at the same time saving the labor of at least one half of the number of hands required in the ordinary way of brick making.

Respectfully, H. L. BISCOE

Messrs Sands & Cummings

[Mr B. first experimented with a dry clay brick machine, at a cost of several thousand dollars, which he set aside and adopted in place thereof one of Sands & Cummings.]

WASHINGTON, March 21 1853

To the Managers of the Metropolitan Mechanics' Institute

GENTLEMEN—I am under the impression that the Committee on Class No. 6, in which the machine deposited by Sands & Cummings—a Brick making machine was entered—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of the Committee, I am of the opinion that it is the best machine now in use in this country for making bricks of *tempered* clay. I have seen the machine in use, of full size, and the *quantity* and quality of the bricks it produces are better than any others that have come to my knowledge. I am engaged in the brick business and have searched much in all our principal cities for the most approved machines, and must say that this machine is the very best I have seen or heard of. I therefore recommend the machine as worthy of the highest award that you can give to any machine at the Exhibition.

SAMUEL BYINGTON

TROY, NEW YORK, September 15 1853

This certifies that I have been in the brick business, extensively for seventeen years, and am employing twenty two hands, and have this day witnessed the operation in my yard of Messrs Sands & Cummings Patent Machine. The Machine tempers the mud and makes brick at the same time. It is simple in its construction and not liable to get out of order, and can be worked with common laborers and makes good bricks and is capable of moulding from 14,000 to 15,000 per day. I am well satisfied with the working of the machine. I have worked different kinds, and take great pleasure in saying that this is the best I have ever seen, and in recommending the same to the public as being worthy their attention.

JOHN ARCHIBALD

CAMBRIDGE, August 27, 1853

This is to certify, that I have been engaged in making brick about twenty years, and have seen and used different kinds of improved brick machines, and am now using them. I have this day witnessed the operation of Sands and Cummings Patent Brick Machine, at Edmund Hayes' brick yard in Cambridge, Mass. and, in my opinion, it is most simple in its construction, and at the same time it possesses every requisite for durability to the extent, that one laboring man can easily do all the work with the machine that is required of practical brick makers. The machine tempers the clay by horse power and, at the same time is capable of moulding 14,000 to 18,000 good bricks per day, and that it is the best machine now in operation, and I take much pleasure in recommending it to all interested.

GEO. W. WYATT

CAMBRIDGE, August 27, 1853

This is to certify that I have been in the brick business for thirteen years and have seen the operation of Messrs Sands & Cummings Patent Brick Machine in Mr Edmund Hayes yard, and in my opinion it is the best in use and that it will make from 14,000 to 18,000 good brick per day, with horse power.

S. M. COFRAN, Putnam street

BOSTON, March 23 1855

H. SANDS—Dear Sir—This is to certify, that the Mechanics Brick Manufacturing Company have had in use in their yards during the past season some of your Patent Brick Machines, and the undersigned regard them the best machines for manufacturing brick that they have any knowledge of.

And in ordering machines parties should invariably, and the dimensions of the bricks required to be made. *This should not be neglected.*

In sales of State, County or other rights machines are sold at cost.

The inventors have been asked often as to the size of yard and position of kilns and being anxious to impart every information to be derived from their practical knowledge, they respectfully submit the following.

For the most successful operation of one machine the yard should be one hundred feet wide, and ninety feet in length, adding from eighty to a hundred feet in width for every additional machine, but never increasing the length of yard. The kiln grounds should extend from the head of the yard so that the bricks being hacked, can be conveyed to the kiln sheds on a parallel line with the yard.

Bricks should be set into the kiln as soon as dried, and made by this machine they dry much sooner than in the usual mode of manufacture.

Canada arrived in dock at 5 o'clock. Mails leave to morrow morning

PEACE NEGOTIATIONS—Russia is said to have made it a condition previous to acceptance of propositions that no indemnity shall be demanded and no cession of territory except that required for rectification, which being conceded she agrees not to fortify Aland Islands

It is reported that Russia will forthwith propose to the Germanic Diet to adhere to the peace preliminaries in order that upper countries of Germany may be admitted to the approaching conference

Liverpool Correspondent has telegraphed many facts and it is unnecessary to give particulars of rumors how Russia selected Paris to slight Austria. How Austrian Cabinet is offended there with. How Sardinia feels jealous of Austrian preponderance. How Russia at last moment to demand in name of general interests of Europe, and in accordance with article 3, that England shall be forbid on to fortify Heligoland, and to restrict her ships of war in Baltic there required for police conference, and Russias preparations for war continue as actively as allied. Iron coated floating batteries similar to allied are being constructed for defence of Cronstadt

Journal Des Debates, hints as much further Napoleon claims as commander by treaty of London sole right to conclude an armistice, evidently false. Military students are invited to enter the army as officers. Abundant preparation of paper money on state security being provided, forced loan of 500000 silver Roubles is imposed on Finland for defence. France and England do not slacken preparations. Principalities, Corriere Italiano, gives the following, as text of plan for reorganization of principalities presented by Lord Stratford to Porte: article one, both principalities to be united and to constitute one vassal state of Sultan

2nd Hereditary Prince to be elected. 3d Prince shall be native. 4th Annual tribute to Porte, the amount to be fixed after a Prince is elected. 5th. A Representation form of Government to be established. 6th An adequate national army to be formed. 7th Interference of Turkey in the internal affairs of the country to be abolished.

Both France and Turkey object to Article 5th

The opinions of the Press in Great Britain, respecting the Queen's speech, vary. The Times, Palmerston's present organ, of course, praises it. The Daily News says the speech was short, and ought to have been shorter. The Morning Herald calls it evasive, unsatisfactory, and indecently brief. The Morning Post, Advertiser and Chronicle praise it

Opinion on change was not favorable, and consols receded it having been expected it would have spoken more definitely of peace or war. Protectionists opposition under Lord Derby, in Lords, and D'Israeli in Commons are prepared to play bold game for office, and that regarding dissolution of Parliament, they will get up some appropriate rallying cry to appeal to the country in elections

Kansas Affairs in Congress.

WASHINGTON, Feb 19

The documents, correspondence, &c, in regard to Kansas matters, were laid before Congress to day. Among the documents are the following

LAWRENCE, Kansas, Jan 21st, 1856

To Franklin Pierce, President of the United States

SIR—We have authentic information that an overwhelming force of the citizens of Missouri are organizing on our borders, amply supplied with artillery for the avowed purpose of invading this territory, destroying our towns and butchering our unoffending free state citizens.—We respectfully demand, on behalf of the citizens of Kansas, the commandant of the U S Troops in this vicinity be immediately instructed to interfere, and prevent such an inhuman outrage. (Signed,) Respectfully,

J H LANE, Chairman Ex Committee

K T C ROBINSON, Chairman Ex. Committee of safety

J R GOODIN, Secretary Ex. Committee, Kansas Territory

G W DELAHAY, Secretary Committee of safety

LAWRENCE CITY, Jan 23, 1856

To the President of the United States

SIR—We notified you that an overwhelming force supplied with artillery, was organizing upon our borders, for the invasion of Kansas, demolishing the towns, and butchering the unoffending free State citizens, and they constituting fourteen twentieths of the entire population, we earnestly request you to issue a proclamation immediately, forbidding the invasion. We trust there may be no delay in taking so important a step to prevent an outrage, which, if carried out as planned, will stand forth without a parallel in the world's history

Signed, Yours respectfully

J H LANE,

Ch'm Executive Committee, K. T

C ROBINSON,

Chairman Committee of Safety

The instructions to call out Sumner the commander of the U States troops, and the instructions to Governor Shannon are also among the documents, they are co-extensive with the recent proclamation. Below are the instructions to Gov Shannon, entire

Mr Marcy, to Governor Shannon, Dep't of State, Washington, Feb 16th, 1856—Governor I herewith inclose to you a copy of a proclamation by the President, dated 11th inst, duly authenticated and also a copy of orders issued from the department of war to Col Sumner and Brevet Col Cooke of the U S army

The President is unwilling to believe in executing your duties as Governor of the Territory, there will be any occasion to call in aid of the U S troops, and it is enjoined upon you to do all that can possibly be done before resorting to that measure, and yet if it becomes indispensably necessary to do so in order to execute the laws and preserve the peace, you are hereby authorized by the President to make requisitions upon the officers commanding the U S troops at Fort Leavenworth and Riley for such assistance as may be needed for the above specified purpose. While confiding in the respect of our citizens for the laws, and the efficiency of the ordinary means provided for protecting their rights and property, he deems it however not improper considering the peculiar situation of affairs in the territory of Kansas, that the Governor should be authorized to have the power herein conferred with a view to meet any extraordinary emergency that might arise, in that territory, that it will not be used until you shall find a resort to it unavoidable, in order to insure the due execution of the laws and to preserve the public peace

Before actual interposition of the military force on any occasion, you will cause the proclamation of the President, with which you are herewith forwarded, to be publicly read

I am your very respectful and ob't servant,

W. L. MARCY,

To Hon Wilson Shannon, Gov of Kansas

Proceedings, &c., in Congress.

WASHINGTON, Feb 19

SENATE—Some pretty sharp words passed between Senators Toucey and Wilson to-day, as soon as the Kansas documents had been read, pending a motion to print. Senator Toucey made a set speech in defence of the President, and avowing his own intentions to support the constitution and laws and concluding with the remark that certain men in this country would lose their vocation by that action of the President which would settle all difficulties in Kansas. Wilson rose to reply, and remarked that if the Senator alluded to him, and those who acted with him, that servility to the Executive was not their vocation, whatever else it might be. General Wilson finishes his speech in the morning

HOUSE—Mr Hickman, of Penn., from the committee on elections, offered a resolution empowering the committee to send for persons and papers, in the Kansas Territorial election case

Mr Phelps, of Missouri, thought that the exercise of such a power would be an usurpation as Mr Reeder does not claim he was elected by virtue of the laws passed by the Kansas Legislature. He defended his constituents from the charge of being border ruffians which had been reported here and elsewhere, and by one Senator Wilson, who comes from a State whose men war on defenceless women, and burn the Ursuline convent. He earnestly condemned the anti slavery men in Kansas and claimed that the Missourians desire no shedding of blood, but to sustain the laws

Mr Washburne of Maine, regretted that Mr Phelps of Missouri, had indulged in such remarks, which were exceedingly exciting not to say inflammatory

A large majority of the people of this country believe in their hearts, that there was no Legislature of Kansas, no laws, and nothing under which the election had been held by which Mr Whitfield claims his seat as delegate. This matter should be investigated, and he asked how could it be done unless power to send for persons and papers was granted

DRY GOOD PALACE

CARPET ROOMS!

Come to the Palace, oh come there with me,
Where Fashion, 'mid splendor, still holds her levee
And smilingly tells you that Beauty is sold,
To youth, or to age, in exchange for their gold;
And their Lady-like charms through life may prolong,
In robes like a Queen's, which sell for a song.
They've shawls for the taste, and shawls for the storm,
They've cloaks which fall softly, so rich, and so warm,
They've carpets of Wilton, of Velvet, and Brussels
They've laces, and 'broideries, ribbons, and tassels,
There's sombre lined goods, for the weeping, and sad,
They've silks like the sunshine, for merry and glad,
They've fabrics for millions, and hold their levee,
For those who pay tribute, or come but to see,
[illegible] Palace of Dry Goods, so wonderous grand,
Can be aught but a fable, of old Fairyland;
But those who know WEVER, can't doubt for a minute
The gorgeous Palace, and all that is in it. C. H. G—

Now I blush, indeed I do, what modest married man would not? Yet I console myself with the idea that beauty always pays tribute to worth and merit. Thanking sincerely yet humbly my fair contributor, I trust that by honesty, uprightness and my gentlemanly bearing, I may ever command her respect.

FIRE INSURANCE COMPANY.

OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.

Capital over $165,000, in Cash & Premium Notes.

THIS COMPANY offers unrivaled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incompatible ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar.—Its business is principally confined to this State.

They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

LIFE AND DEATH.

THE

Mysteries of Disease Laid Open to the People.

Health is the Principle of Life—Disease is the Principle of Death.

The R. R. R. Remedies possess the great power to secure to the human system health and long life, and free the human family from pains, aches, and all bodily infirmities.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE

BY THE R. R. R.'S.

RADWAY'S READY RELIEF

IS TO BE USED in all cases where there is pain. The moment it is applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spasms, burns, scalds, &c., quicker than Morphine, Chloroform, Veratrine, or any other anodyne or remedy that has ever been used by medical men.

It is safer than these dangerous remedies. The public will bear in mind that Chloroform, Morphine, Opium, &c., only stifle the pain by stupifying the senses, so that the perceptive faculties lose the power of feeling, and that after the influence of these narcotics have passed from the system—the pain again breaks forth with its terrible pangs, with renewed violence.

Radway's Ready Relief stops the pain and removes the cause of the disease that occasions it; it infuses new life into the weak and diseased parts. It braces the nerves, and establishes in the system a reaction of health and strength, in the place of pain, weakness and disease.

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where there is any inflammation or congestion, it will instantly scatter the congested blood, equalizes the circulation, and in a few minutes the most excruciating pains are removed. This may be seen in cases of Lumbago, Gout, and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the patient ease and comfort.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his recovery—Timely use of R. R. R.—A wonderful cure.

LETTER FROM ISAAC HUDDLESTONE.

Rapids Parish, La., June 10th, 1855.

Messrs. Radway & Co.,—Radway's Ready Relief has cured Peter May of Rheumatism, when there was no hope of his ever recovering. I heard of his situation and I sent for him. His right arm and leg was all perished. He had no use of them at all; but by the use of your medicine, in two months he was carrying the mail from Cherryville to Burr's Ferry. I objected. He said he must do something for a living. It has been fourteen months since he was cured. He is now well and working on his farm, and the whole cost of your medicine was five dollars.

CARTER'S SPANISH MIXTURE

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN!!

NOT A PARTICLE OF MERCURY IN IT!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and joints, are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn-out frame, clears the skin, and leaves the patient fresh and healthy; a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The Press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by CARTER'S SPANISH MIXTURE. (IN MOST CASES WHERE EVERY THING ELSE HAD SIGNALLY FAILED.) The limits of an advertisement will not admit their full insertion.

DR. WEAVER'S

CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN UNDISPUTABLE FACT THAT the above medicines are the only infallible remedies now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c.

Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their curative powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North and South, of the wonderful cures they are preforming.

See what is said by those who have used these medicines:

The Rev. Samuel Henry, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas;"

Capt. William Vail, of the steamer Granite State, says: "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev. August Bolles says "it has cured the Salt Rheum in my leg."

J. Hatfield Frazer, Esq., editor of the Somerset Whig, Somerville, N. J., says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."

Elias Latham, Esq., of Orient, Long Island, N. Y., says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the spryest man on the Island."

The Rev. J. S. Swan, of New London, says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in number of cases for Salt Rheum and Erysipelas, with entire success.

Ask Seth Prisbery, of Taunton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jeff Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, Vt.; ask F. L. Kent, of Chicago, Ill; ask Martha Costle, of Martha's Vineyard, Mass; ask Wm F. Keables, or Wm P. Benjamin, Esqs., of New London; ask Dr. H. M. Murdock, of Pulaski, N. Y; ask J. C. Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate, ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Able of Home, N. Y., what the Syrup and Cerate will do for sore legs; ask Winslow and Slafter, Merchants, Virgil, N. Y. what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.

READ AND JUDGE FOR YOURSELVES

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head, &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following:

CARLYLE, Ill., June 28, 1855.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1853.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours,
WILSON KING

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle up (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots, and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

July 1, 1854. Yours, &c., ———.

GARDNER, Me., June 22, 1855.

Mr. Dyer: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, &c.,
DANIEL N. MURPHY.

ST. LOUIS, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

A. C. WILLIAMSON,
133 Second Street.

ST. LOUIS, June 28, 1853.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, &c.,
